

Chapter Objectives

- 1. Explain the two functions of the financial management of a firm.
- 2. Identify the four main financial objectives of entrepreneurial ventures.
- 3. Explain the difference between historical and pro forma financial statements.
- 4. Explain the purpose of an income statement.
- 5. Explain the purpose of a balance sheet.

Chapter Objectives

- 6. Explain the purpose of a statement of cash flows.
- 7. Discuss how financial ratios are used to analyze and interpret a firm's financial statements.
- 8. Discuss the role of forecasts in projecting a firm's future income and expenses.
- 9. Explain what a completely new firm bases its forecasts on.

8-3

10. Explain what is meant by the term percent of sales method.

Financial Management

8-2

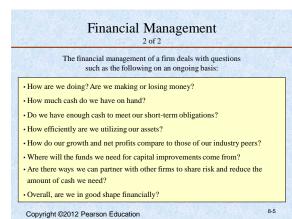

8-4

Financial Management

Copyright ©2012 Pearson Education

- Financial management deals with two things: raising money and managing a company's finances in a way that achieves the highest rate of return
- Chapter 10 focuses on raising money. This chapter focuses primarily on:
 - How a new venture tracks its financial progress through preparing, analyzing, and maintaining past financial statements.
 - How a new venture forecasts future income and expenses by preparing pro forma (or projected) financial statements.

Financial Objectives of a Firm

2 of 3

- Profitability
 - Is the ability to earn a profit.
 - Many start-ups are not profitable during their first one to three years while they are training employees and building their brands.
 - However, a firm must become profitable to remain viable and
 - provide a return to its owners.
- Liquidity
 - Is a company's ability to meet its short-term financial obligations.
 - Even if a firm is profitable, it is often a challenge to keep enough money in the bank to meet its routine obligations in a timely manner.

8-7

Financial Objectives of a Firm 3 of 3

Efficiency

- Is how productively a firm utilizes its assets relative to its revenue and its profits.
 - Southwest Airlines, for example, uses its assets very productively. Its turnaround time, or the time its airplanes sit on the ground while they are being unloaded and reloaded, is the lowest in the airline industry.

• Stability

- Is the strength and vigor of the firm's overall financial posture.
 - For a firm to be stable, it must not only earn a profit and remain liquid but also keep its debt in check.

The Process of Financial Management ${}_{1 \text{ of } 4}$

Importance of Financial Statements

- To assess whether its financial objectives are being met, firms rely heavily on analysis of financial statements.
 - A financial statement is a written report that quantitatively describes a firm's financial health.
 - The income statement, the balance sheet, and the statement of cash flows are the financial statements entrepreneurs use most commonly.
- Forecasts
 - Are an estimate of a firm's future income and expenses, based on past performance, its current circumstances, and its future plans.

Copyright ©2012 Pearson Education

The Process of Financial Management

• Forecasts (continued)

 New ventures typically base their forecasts on an estimate of sales and then on industry averages or the experiences of similar start-ups regarding the cost of goods sold and other expenses.

- Budgets
 - Are itemized forecasts of a company's income, expenses, and capital needs and are also an important tool for financial planning and control.

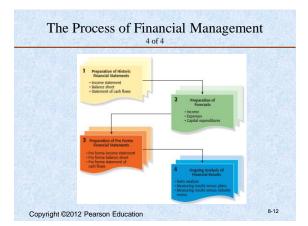

Copyright ©2012 Pearson Education

The Process of Financial Management

- Financial Ratios
 - Depict relationships between items on a firm's financial statements.
 - An analysis of its financial ratios helps a firm determine whether it is meeting its financial objectives and how it stacks up against industry peers.
- · Importance of Financial Management
 - Many experienced entrepreneurs stress the importance of keeping on top of the financial management of the firm.

8-11

Financial Statements

- Historical Financial Statements
 - Reflect past performance and are usually prepared on a quarterly and annual basis.
 - Publicly traded firms are required by the SEC to prepare financial statements and make them available to the public.
- Pro Forma Financial Statements
 - Are projections for future periods based on forecasts and are typically completed for two to three years in the future.
 - Pro forma financial statements are strictly planning tools and are not required by the SEC.

New Venture Fitness Drinks

- New Venture Fitness Drinks
 - To illustrate how financial statements are prepared, we used New Venture Fitness Drinks, the fictitious sports drink company introduced in Chapter 3.
 - New Venture Fitness Drinks has been in business for five years.
 - Targeting sports enthusiasts, the company sells a line of nutritional fitness drinks.
 - The company's strategy is to place small restaurants, similar to smoothie restaurants, near large outdoor sports complexes.
 - The company is profitable and is growing at a rate of 25% per year.

Historical Financial Statements

| Financial Statement | Purpose |
|-------------------------|---|
| Income Statement | Reflects the results of the operations of a firm over a specified period of time. It records all the revenues and expenses for the given period and shows whether the firm is making a profit or is experiencing a loss. |
| Balance Sheet | Is a snapshot of a company's assets, liabilities, and owner's equity at a specific point in time. |
| Statement of cash flows | Summarizes the changes in a firm's cash position for a specified period of time and details why the changes occurred. |

Historical Income Statements

| | December 31, 2011 | December 31, 2010 | December 31, 200 |
|---|-------------------|-------------------|------------------|
| Net sales | \$586,600 | \$463,100 | \$368,900 |
| Cost of sales | 268,900 | 225,500 | 201,500 |
| Gross profit | 317,700 | 237,600 | 167,400 |
| Operating expenses | | | |
| Selling, general, and administrative expenses | 117,800 | 104,700 | 90,200 |

| Increase in cash | 9,200 | (1,900) | |
| Cash and cash equivalents at the beginning of year | 54,600 | 56,500 | |
| Cash and cash equivalents at the end of each year | 63,800 | 54,600 | |

Ratio Analysis

- · Ratio Analysis
 - The most practical way to interpret or make sense of a firm's historical financial statements is through ratio analysis, as shown in the next slide.
- Comparing a Firm's Financial Results to Industry Norms

 Comparing a firm's financial results to industry norms helps a firm determine how it stacks up against its competitors and if there are any financial "red flags" requiring attention.

| Debt | Total debt/total assets | 39.7% | 37.4% | 42.3% |
| Debt to Equity | Total liabilities/owners' equity | 65.8% | 59.8% | 73.2% |

Forecasts

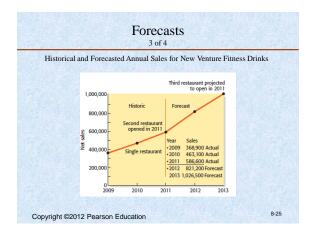

· Forecasts

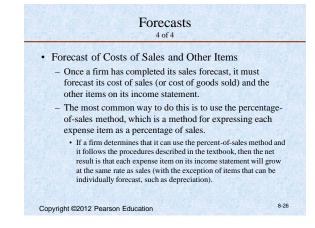

- The analysis of a firm's historical financial statements are followed by the preparation of forecasts.
- Forecasts are predictions of a firm's future sales, expenses, income, and capital expenditures.
 - A firm's forecasts provide the basis for its pro forma financial statements.
 - A well-developed set of pro forma financial statements helps a firm create accurate budgets, build financial plans, and manage its finances in a proactive rather than a reactive manner.

| | Forecasts 2 of 4 |
|---|---|
| • | Sales Forecast |
| | - A sales forecast is a projection of a firm's sales for a |
| | specified period (such as a year). |
| | - It is the first forecast developed and is the basis for most of |
| | the other forecasts. |
| | A sales forecast for a new firm is based on a good-faith estimate of sales and on industry averages or the experiences of similar start- ups. |
| | • A sales forecast for an existing firm is based on (1) its record of |
| | past sales, (2) its current production capacity and product demand, and (3) any factors that will affect its future product capacity and product demand. |

Copyright ©2012 Pearson Education

8-24

Pro Forma Financial Statements

- Pro Forma Financial Statements
 - A firm's pro forma financial statements are similar to its historical financial statements except that they look forward rather than track the past.
 - The preparation of pro form financial statements helps a firm rethink its strategies and make adjustments if necessary.
 - The preparation of pro forma financials is also necessary if a firm is seeking funding or financing.

8-27

Ratio Analysis

Ratio Analysis

- The same financial ratios used to evaluate a firm's historical financial statements should be used to evaluate the pro forma financial statements.
- This work is completed so the firm can get a sense of how its projected financial performance compares to its past performance and how its projected activities will affect its cash position and its overall financial soundness.
